Self-motivated product designer with 4+ years of project management experience, who creates simple but practical UX and UI. Originally from Japan, I possess an unmatched level of work ethic and motivation. I've acquired the ability to adapt and comprehend new challenges while under pressure to help teams keep timelines and deliver products to customers.

Experience

Pokémon International – Bilingual Project Manager

Bellvue, WA | Jun 2020 - Jun 2022

- Produced 10+ art directions for package illustrations of the Trading Card Game products that were marketed across the world.
- Created guidelines for the use of art assets for internal teams and external parties.
- Managed to deliver necessary assets in time sensitive schedules while collaborating with people from various internal teams as well as partners in Japan.
- Proofed 5000+ products including the cards, packages, accessories, and documents to improve the quality.
- Handled the end-to-end process of the TCG accessory production.

Pacific Software Publishing, Inc. – Project Coordinator & QA Specialist

Bellevue, WA | Dec 2017 - May 2022

- Managed and tracked the progress of projects, which included coordination of deployments and stakeholder presentations with people from different departments.
- Determined the priority of problems and requests reported from customers and employees, and escalated it to appropriate assignees.
- Involved in product development by specifying requirements and creating mock-ups.
- Performed testing for 10+ web-based applications for clients and internal use as well as provided feedback to improve the quality of services before delivery.

Freelance – Web & Graphic Designer

Jan 2017 - Jul 2018

- Designed user-focused websites and simplified existing web-content to make important information readily accessible by users.
- Completed over 20 projects including designs for web and mobile sites, logos, invitation cards, place cards, business cards, and character designs.
